1 - What are the strengths and weaknesses of Dario Alberto Romero Fonseca (discussion section leader, lab section leader, grader) as an instructor, and how might Dario Alberto Romero Fonseca's teaching be improved?

Response Rate 8/51 (15.69%)

- Very easy going and helpful
- Didn't go to discussion section often, but when I did it was helpful.
- More patient
- Dario performed great in making the materials more accessible. He was really clear in explaining, and showed good teaching skills for a young TA. At the same time, he is very helpful and ready to assist students. Great job done.
- Dario was a really good TA as well. I really have no criticism of his instruction and he was always able to walk us through the material.
- Dario is great. He stayed longer than his planned office hours to help groups of students struggling with problem sets. He was always available to answer questions, and he was so patient when explaining things to confused students. I would not have survived this course without Dario. Give this man a raise, he deserves it. One of the best TAs I have ever had.
- Dario has taught me more about games and probability than I had learned previously in my time at Columbia and was generally a very helpful TA.
- Dario is a genius. Really helped us all out.
